ELITE ROOF WINDOW RANGE

BY STEELFORMERS

STEALTH WINDOW RANGE – KEY POINTS OF DIFFERENCE

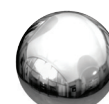

FEATURES LIST:

- Stealth Elite Roof Window offers complete flexibility in size
- Quality Italian control mechanisms on opening sashes
- Control mechanisms can be integrated with rain and wind sensors to close the sash should weather change
- Exterior colour can be customised on Stealth Elite Windows to match your roofing colour
- Dulux powder coat with a minimum 10 year warranty
- Interior Colour can be matched to the internal finishes, split colour available on Stealth Elite Roof Windows only
- Highest recycled content of any aluminium produced in New Zealand
- A roof window can provide up to twice the natural lighting of a standard wall glazed window, reduce the need for additional lighting
- Insulated glass unit can be specified as an acoustic unit, perceived sound reduction can be as high as 1/2 the original noise level
- Acoustic unit also has the added benefit of 99% elimination of harmful UV rays
- WEERS (Window Energy Efficiency Rating System) rating provided by Metro Performance Glass indicates 5.0 stars for our lowest glass specification
- Standard glass unit has a R value (resistance to loss of heat) of 0.62 m²K/W, 17% more resistance than our nearest competitor
- Insulated glass unit with tinted glass can reduce the heat gain by as much as 50%
- Designed and manufactured in New Zealand for New Zealand conditions
- High performance thermally-broken aluminium frame for durability and no need to re-finish timber interiors
